

Powder coating lines for Construction and Agricultural machinery

Prism supplies complete powder coating lines for excavators, cranes, tractor parts, farm equipment and various other heavy machinery. Our installations are running successfully worldwide for over 10 years. We have plant designs which are of German standards and are energy efficient.

Our scope of supply includes

- Spray Pre treatment plants
- Specially designed powder coating booths to access all parts of the component
- Energy efficient powder curing ovens
- Power and free conveyors
